

June 30, 2025

Dear Business Partners,

Subject: Revision of the Green Procurement Standards
- Prohibited and Controlled Substance List

Procurement Department,
Shimadzu Corporation,

Thank you for your continued support of Shimadzu group procurement activities. We have revised the list of prohibited and controlled substances in the "Shimadzu Group Green Procurement Standards" considering the new designated substances for elimination under the POPs Convention and other regulatory trends. We would appreciate your attention to this change and your appropriate action.

Details:

1. Revision Details (List Revision Date: July 1, 2025)

i. The following three substances will be added as prohibited substances.

Substance Name	CAS No.	Application	Threshold
MCCPs (Medium-Chain Chlorinated Paraffins)	Specified separately	All	Intentional addition
LC-PFCA (Long-Chain Perfluoroalkyl Carboxylic Acid)	Specified separately	All	Intentional addition
PFAS (Per- and Polyfluoroalkyl Substances)	-	Packaging materials, packaging components	Intentional addition

ii. Changes in Thresholds

Substance Name	Current	Revised
PFOS (Perfluoro-octane sulfonate)	Intentional addition or coated materials at 1µg/m ² or 1000ppm in molded products	Intentional addition or coated materials at 1µg/m ² or 25ppb in molded products; related substances at 1ppm
HBCDD(Hexabromocyclododecane)	Intentional addition or 0.01 weight% (100ppm) in molded products	Intentional addition or 0.0075 weight% (75ppm)

June 30, 2025

2. Application Start Date :

Effective from January 1, 2026.

3. Notice of Individual Investigations

In addition to prohibiting substances under the Green Procurement Standards, we will conduct investigations on products from the past few years. Please ensure substitution by the deadline if any relevant substances are found.
